Report

The Oxford College of Engineering, Bangalore- Institution Innovation Council in association with Department of Computer Science and Engineering organized an Add-on program on the title “Skill Development for Higher Studies” from 9th November 2022,2:30 PM by Kyndrl India Pvt.Ltd.

Objective:

The main objective of the Add-on is to focus on the idea of designing, launching and running of new business. Higher Studies removes the problem of unemployment in the society. During the session, the resource person explained the process and procedure involved in setting up of small start-ups and Higher Studies opportunities. He also addressed the students how to acquire various skills required running small units on their own.

The session highlighted the four important types of Higher Studies. They are small business, scalable start-ups, large company and social Higher Studies. He also addressed and briefed about the goals of Higher Studies such as how to develop a business plan, achieving financial stability, how to hire the right people and how to implement a marketing strategy.

He concluded the session emphasizing on the importance of Higher Studies and how to focus on personal growth. The session was very motivating and created positive thoughts among the students.

Around 120 students and 7 faculty are participated in the webinar.

Outcomes:

The main outcome of this Add-on program is to create new product or service. The participants got detailed knowledge about Higher Studies and start-ups. The Resource person created awareness about the Job opportunities and Higher Studies skills. This also helped the students to tackle the various competitions and how to run new business and generate profit and also emphasized how to improve collaborative and inter-personal skills. Other important outcomes of the add on

Report

Location: Department of ISE, The Oxford College of Engineering, Bangalore.

Organizer: The Department of Information science and Engineering.

Summary:

The Add on course titled "IoT for Real-Time Operations" convened on 07/11/2022 at Department of ISE, The oxford college of Engineering, Bangalore, aimed to explore the integration of Internet of Things (IoT) technologies in optimizing real-time operational processes across diverse industries. The workshop witnessed the participation of 68, 5th semester students on leveraging IoT for enhanced operational efficiency and productivity.

Objectives:

The course focused on achieving the following objectives.

1. Understanding the foundational concepts of IoT and its applicability in real-time operations.
2. Exploring case studies and success stories highlighting IoT implementation for operational enhancement.
3. Discussing challenges, potential solutions, and future trends in IoT for real-time operations.
4. Facilitating networking and knowledge exchange among participants.

Key sessions:

Introduction to IoT for Real-Time Operations

The Add on program commenced with an illuminating session providing an overview of IoT and its relevance to real-time operations. Participants gained insights into the fundamental principles, components, and architectures of IoT systems.

Case studies and Industry Applications:

The resource person from industry shared compelling case studies showcasing successful implementations of IoT for real-time operations. These presentations highlighted the impact of IoT in sectors such as manufacturing, logistics, healthcare, and more.

Discussion on Challenges and solutions:

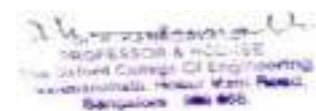

A thought-provoking panel discussion engaged participants in addressing the challenges encountered in adopting IoT for real-time operations. Discussions centered around security concerns, interoperability issues, and scalability, while proposing potential solutions and best practices.

Future Trends and Innovations:

The course concluded with an exploration of emerging trends and innovations in IoT, providing a glimpse into the future landscape of IoT-driven real-time operations. Participants gained insights into advancements such as edge computing, AI integration, and predictive analytics.

Outcome:

The Add on program on "IoT for Real-Time Operations" served as an insightful platform for knowledge dissemination, fostering valuable discussions, and networking opportunities among industry experts and enthusiasts. Participants departed with enriched insights, strategies, and inspirations to leverage IoT for enhancing real-time operational efficiency in their respective domains.

DEPARTMENT OF CIVIL ENGINEERING

Academic Year 2022-23

Report

The Oxford College of Engineering, Bengaluru – Institutions Innovation Council in association with Department of Mechanical and Civil Engineering organized a seminar titled " Workshop on Entrepreneurship skill, attitude and behaviour development " by Mr. Srinath Dronamraju , on 1st February to 11th February 2023 from 2 PM to 5 PM in offline mode in 2nd Floor, Old Block , Room Number 206

Objective

1. To create awareness about the importance of innovation and ideageneration.
2. To develop Positive attitude and overcome mentality.
3. To develop problem solving skills of students
4. To develop ideas to overcome obstacles and be proactive.

At the outset the students were welcomed, made aware about the objective of the workshop and the initiatives of Institution Innovation Cell (Ministry of Education, GoI).

The resource person covered the following points to make them as a successful future Entrepreneur:

1. **Learn from the experience of other entrepreneur:** The famous entrepreneurs where they tell how they started their projects, and a good entrepreneur must be informed and updated
2. **Positive Mindset:** Having a positive and entrepreneurial attitude is essential to achieve the objectives. Having a good positive attitude can help make a personal project come true.
3. **Believe in yourself:** To be a good entrepreneur, you must believe in your business idea, which will be essential to overcome obstacles and be proactive.

THE OXFORD COLLEGE OF ENGINEERING

☎: 080 -61754 601/602/604/736E-mail: engprincipal@theoxford.edu/email, Web: www.theoxfordengg.org

4. **Organization and Planning:** An entrepreneur knows that part of this organization and planning involves forming a work team and delegating its functions so that the entrepreneur knows what resources he needs and foresees the risks for decision-making. About 49 students were attended the workshop. The queries of the students were very well handled by the speaker. The overall feedback of the workshop was very positive.

Total 49 students participated in the events from civil department.

Outcome:

1. Students were made aware of various Govt Schemes for establishing start-ups
2. Students learned the very basic of entrepreneur skills and how one can become an entrepreneur with just a basic innovative idea.

COURSE DESCRIPTION

Raising private capital can be a daunting process, especially for new entrants in the sector. A foundation of Private Equity and Venture Capital delves into the fundamental challenges and best practices for successfully raising a new fund or venture. You will explore the full range of industry models, from venture capital to growth equity to buyouts, as well as the key issues related to investment criteria, management strategies, and decision-making processes.

Providing deep insight into the landscape, players, and trends in private equity and venture capital, this new program boosts your investment expertise at every stage of the deal structuring and fundraising process. You will return to your company with the skills, strategies, and confidence to target the right investors, find the best deals, and raise the capital for your first-time fund.

COURSE OUTCOMES:

- Students will develop a comprehensive understanding of the fundamental concepts and principles of private equity and venture capital, including their roles in the financial markets.
- Gain insights into the various investment strategies employed by private equity and venture capital firms, and how these strategies differ from traditional equity investments.
- Learn how to conduct in-depth due diligence on potential investment opportunities, including financial analysis, market research, and risk assessment.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Academic Year 2022-2023

Report

Title: Technical Training on “Bootcamp on Python Programming”

Objective: To provide training on Python Programming and prepare them to industry ready requirements.

Date: 11th January 2023 to 31st January 2023

Time: 9:00AM to 11AM

Location: The Oxford College of Engineering

Organized by: Beekoder, Bangalore

Audience: final year students

Speaker: Mr. Purnendu Mukherjee, Automation Engineer (Automation QA) BEE KODER

Method Adopted: Theory and practical sessions along with hands on sessions

Materials Used: Python framework

Description (only 10-15 lines): The Training was planned for Python programming for the students which would help them in their career, placements and their prefinal year project work. All the sessions were well organized and it was also fully practical based session. Students were also exposed to interview questionnaires and real-life projects. They have been trained with the advanced tools for solving problems, projects and interview questions.

Outcome:

Students will be able

- Develop error-free, well-documented Python programs
- Appreciate the breadth & depth of Python Programming and use in real-world scenarios.
- Gained knowledge on Python
- Got project ideas

CIRCULAR

This is to inform the staffs and students of CSE that the Add-on course on AWS Cloud Essential for Researchers has been organised for the final year students. Its compulsory that all the students should attend the training without fail. The details are mentioned below.

Topic : AWS Cloud Essential for Researchers

Organization : KOEING INDIA

Date : 11/03/2023 to 05/04/2023

Venue : 3rd floor seminar hall

Audience : CSE students

Hope the students get benefited from this expert talk.

RESOURCE PERSONS DETAILS

ADD ON CERTIFICATE PROGRAM

Organisation: KOEING INDIA

AWS Technical Essentials is an introductory-level course designed to give users the basics of cloud computing on Amazon Web Services (AWS). This course provides a strong foundation of AWS core services and fundamental principles, giving new users the resources to confidently get started building cloud-based applications in the AWS environment. The course is an ideal starting point for demonstrations and hands-on labs; it is designed to engage users of all levels, from beginners to advanced users, by introducing the foundational concepts of cloud computing with AWS, including basic architectural principles, core services, and how to interact with AWS using the AWS Management Console, Command Line Interface (CLI), and Software Development Kit (SDK).

Report

The Oxford College of Engineering, Bangalore- Institution Innovation Council in association with Department of Computer Science and Engineering organized an Add-on program on the title “AWS CLOUD ESSENTIALS FOR RESEARCHERS” by KOEING INDIA.

Objective:

The objective of researching AWS Cloud Essentials encompasses a multifaceted exploration of key topics within Amazon Web Services, aiming to provide a holistic understanding of cloud computing principles. Researchers seek to delve into core AWS services, deciphering their roles and functionalities, while also identifying and documenting best practices for secure, cost-effective resource management. Proficiency in Infrastructure as Code (IaC) tools, such as AWS CloudFormation, becomes a focal point for automating deployment processes. Networking, security, and high availability strategies are explored to build resilient architectures. DevOps practices are investigated for streamlined development and deployment workflows, and integration with machine learning and artificial intelligence services is explored for data analysis and modeling. The research extends to monitoring, logging, and troubleshooting using AWS tools like CloudWatch and CloudTrail, and considerations for database management and migration planning from on-premises environments to AWS are addressed. The ultimate goal is to contribute to the knowledge base, offering insights that empower businesses and professionals to make informed decisions in harnessing the full potential of AWS for their cloud computing requirements.

Outcomes:

The outcomes of researching AWS Cloud Essentials are manifold, culminating in a comprehensive body of knowledge that serves to enhance the efficiency and effectiveness of cloud computing practices. With a deep understanding of core AWS services, researchers contribute valuable insights into best practices for secure resource management and cost optimization. Proficiency in Infrastructure

as Code (IaC) tools empowers professionals to automate deployment processes, fostering agility and consistency in development workflows. Exploration of networking, security, and high availability strategies results in the development of resilient architectures, while the investigation of DevOps practices facilitates the implementation of streamlined and automated development and deployment pipelines. Integration with machine learning and artificial intelligence services opens new avenues for data analysis and model deployment. The research also yields practical guidelines for monitoring, logging, and troubleshooting using AWS tools like CloudWatch and CloudTrail. Considerations for effective database management and migration planning further enhance the researcher's contributions, providing businesses and professionals with actionable insights to navigate and optimize their AWS cloud environments confidently.

Add-on course Report:” IoT for real time applications”

Date: 23/06/2023 to 06/07/2023

Location: Department of ISE ,The Oxford College of Engineering,Bangalore.

Organizer: The Department of Information science and Engineering.

Summary:

The Oxford college of Engineering has organized 14 days Add-on course on Data Analytics for Second and third year female students of ISE, AIML, CSE, ECE, BT and MCA and was conducted by **Learning Links Foundation**, from **23/06/2023 to 17/07/2023** under “**Women’s in Data**” program a collaboration effort of LLF and DELL Technologies. A total of 77 students enrolled for this program. Total duration of the course was 28 hrs

Objectives:

This Add-on course aim to encourage women to build their interest, knowledge and expertise in high demanding STEM career field, enhance their job readiness skill and provide them an opportunity to increase their employability in the technology workforce.

All the theory classes and lab practices were held at MCA Lab, The Oxford College of Engineering from 9.00 am to 11.00 am dated from **23/06/2023 and 17/07/2023** (14 days).

The trainers Mr. **Jyothi Ram** and Mr. **Yathish S** explained the concepts of Data Analytics to all students along with how to use Power BI, General Applications of Python and Excel

Key sessions:

The trainer taught basic concepts of Excel like Data tools, Date and time functions, Advance filter and vlookup and hlookup.

The trainer also taught standard data types, Python libraries and how to do Data Analytics using python to all students.

Conclusion:

All the trainers have good knowledge in all the programming concepts. All topics were explained well with examples and the classes were interactive. The trainers discussed possible interview questions of every topic and also gave interview tips .

Outcomes:

- By doing this workshop the students got an understanding of Data Analytics in integrated environment.
- The trainer has given the Udemy activation link and asked the student to complete the following courses:
 - Microsoft Excel 2020-23-frombeginnersto expertin6hours
 - Power BI master classes from scratch-in90 minutes or Power BI master class dashboard and Power BI Service 5.5 hours.

Student's feedback: Students were satisfied with course content and the way the training sessions were conducted.

DEPARTMENT OF CIVIL ENGINEERING

Academic Year 2022-23

Report

The Oxford College of Engineering, Bengaluru- Institution Innovation Council in Association with Department of Civil Engineering organized an add on program on “Innovation and Design Thinking Ideas in Geotechnical Engineering” on 14th August 2023 to 25th August 2023, 2pm – 5 pm by Mrs Malarvizhi BE

Feature Constructions LLP

OBJECTIVES:

The main objective of the Add-on program is to create a knowledge about “Innovation and Design Thinking Ideas in Geotechnical Engineering” in Room No 206 ,2nd floor.

Everyday the session was started by 2 pm. He started the session by explaining the basic meaning of geotechnical engineering. Geotechnical engineering is the study of the behaviour of soils under the influence of loading forces and soil-water interactions. This knowledge is applied to the design of foundations, retaining walls, earth dams, clay liners, and geo synthetics for waste containment. The goals of geotechnical engineers could range from the design of foundations and temporary excavation support, through route selection for railways and highways, to the increasingly important areas of landfill disposal of wastes and groundwater contamination. As such, the geotechnical engineer is involved in field and laboratory investigations to determine the engineering properties of site soils and other geomaterials and their subsequent use in the analytical study of the problem at hand.

THE OXFORD COLLEGE OF ENGINEERING

(Recognized by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, & Approved by A.I.C.T.E. Accredited by NBA, NAAC with 'A' Grade. Recognized by UGC under section 2(f))

Bommanahalli, Hosur Road, Bengaluru -560068.

☎: 080 -61754 601/602/604/736E-mail: engprincipal@theoxford.edu/email, Web: www.theoxfordengg.org

Recent computational and computer advances are extending our ability to predict the behaviour of soil and soil-water systems under a wide variety of conditions. In recent years, the activities of geotechnical engineers have also involved geoenvironmental engineering. Geoenvironmental engineers design strategies for the clean-up of contaminated soils and groundwater and develop management systems for contaminated sites.

The Add-on program was concluded by explaining the employment opportunities include geotechnical and engineering consultants, public utilities, governmental agencies, environmental agencies, specialized contractors and resource industry companies.

Around 45 students and 5 faculty members are participated in the workshop.

OUTCOMES:

1. Students were made aware of Innovation and Design Thinking Ideas in geotechnical Engineering.
2. Students learned the very basic of innovations and discoveries in geotechnical Engineering.

Name: Mr.ANOOP B.S.

Qualification: B.Sc ,B.E[Mech] from Bangalore University

Specialization: Tool Design, Govt. Tool Room, Bangalore and Also Post Graduate Diploma in Business Administration From Ignou

Strengths: Expert in Remote Reservoir Shock Absorber, Composite Rod End Bearing for Small Hydraulic Cylinders

Member: Society of Automotive Engineers [Sae] India, Bangalore Section

Clients: NTTF, Tvs Motors, Mec Cocepts, Advait Hyundai

He is a management committee member of society of automotive engineers [SAE] India, Bangalore section.

He is also the SAE Awim Master Trainer, and has trained many school teachers, engineers & students for the same. He has been a judge for SAE Baja, Supra & Ega National level automotive competitions for engineering students. He conducts programs for students to develop practical skills, which helps them better understand the theory. He is passionate about automobiles in general & bikes in particular, apart from designing and building educational kits, his interests include automobile engines, suspension systems, transmission systems & robotics.

SUMMARY REPORT and COURSE OUTCOME

SI No	Title	Trainer
1	Design of Fluid Power Systems and its Analysis	Mr. Anoop B S

Title: Design of Circuit for Fluid Power System

Duration: 03 weeks

Venue: Mechatronics lab

Resource person: Mr. Anoop B S

Theory syllabus

Unit – 1: Introduction to the design of hydraulics circuits, control elements, direction control valve, check valve, pressure control valve, symbolic representation

Unit – 2: PLC Applications in fluid power systems

Introduction, trouble shooting-oil hydraulics, Trouble shooting-pneumatics

Text books: 1.Fluid power with application-Anthony Esposito

2. Oil hydraulics-S.R. Majumdar

Reference book: Hydraulics and pneumatics-Andrew parr

CHILDREN'S EDUCATION SOCIETY (Regd.)
THE OXFORD COLLEGE OF ENGINEERING

(Recognised by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, Belagavi.

Approved by A.I.C.T.E. New Delhi.

Recognised by UGC Under Section 2(f)

Bommanahalli, Hosur Road, Bangalore - 560 068.

Ph: 080-61754601/602, Fax: 080 - 25730551

E-mail: engprincipal@theoxford.edu Web: www.theoxfordengg.org

Practical syllabus

1. Hydraulic clamping circuits for machine tools
2. Hydraulic circuits for feed operation in machine tools
3. Speed control of hydraulic cylinder using direction and speed control valves
4. Hydraulic circuit for plastic injection moulding machine
5. To build on/off circuit for single and double acting cylinders

Design of Fluid Power Systems and its Analysis:

A 3 week add on course has been conducted between 10.04.2023 to 28.04.2023 successfully under the Guidance of Mr. Anoop B S. The Lab is conducted in Mechatronics Lab. Total number of Students enrolled for the course is 17 No's. The course is offered to Final Year students.

The course enable students to apply the basic knowledge of fluid power system into practical use, an elementary knowledge of Fluid power system application is imparted through designing of simple circuits. This will help the students to learn practical use of knowledge of Fluid Power System in the Modern Industry which is not provided in the Syllabus.

CHILDREN'S EDUCATION SOCIETY (Regd.)
THE OXFORD COLLEGE OF ENGINEERING

(Recognised by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, Belagavi.

Approved by A.I.C.T.E. New Delhi.

Recognised by UGC Under Section 2(f)

Bommanahalli, Hosur Road, Bangalore - 560 068.

Ph: 080-61754601/602, Fax: 080 - 25730551

E-mail: engprincipal@theoxford.edu Web: www.theoxfordengg.org

Course outcomes:

At the end of course the student will be able to:

- Get an insight into the application of hydraulic and pneumatic system
- Build and interpret hydraulic and pneumatic circuits related to industrial applications
- Familiarize with logic controls and trouble shooting

The Oxford college of Engineering has organized 14 days workshop on Data Analytics for Second and third year female students of ISE, AIML, CSE, ECE, BT and MCA and was conducted by **Learning Links Foundation**, from **23/06/2023 to 17/07/2023** under “**Women’s in Data**” program a collaboration effort of LLF and DELL Technologies. A total of 77 students enrolled for this program. Total duration of the course was 30 hrs.

CHILDREN'S EDUCATION SOCIETY (Regd.)
THE OXFORD COLLEGE OF ENGINEERING

(Recognised by the Govt. of Karnataka, Affiliated to Visvesvaraya Technological University, Belagavi.
Approved by A.I.C.T.E. New Delhi.
Recognised by UGC Under Section 2(f)
Bommanahalli, Hosur Road, Bangalore - 560 068.
Ph: 080-61754601/602, Fax: 080 - 25730551
E-mail: engprincipal@theoxford.edu Web: www.theoxfordengg.org

OBJECTIVE:

1. Data analytics help a business optimize its performance innovatively
2. The data analytics designed will perform more efficiently with innovative tools.
3. Provides opportunity for innovative ideas in managing the bigdata.

This workshop aim to encourage women to build their interest,knowledge and expertise in high demanding STEM career field,enhance their job readiness skill and provide them an opportunity to increase their employability in the technology work force.

All the theory classes and lab practices were held at MCA Lab, The Oxford College of Engineering from 9.00 am to 11.00 am dated from **23/06/2023 and 17/07/2023**(14 days).

The trainers Mr. **Jyothi Ram** and Mr. **Yathish S** explained theconcepts of Data Analytics to all students along with how to use Power BI, General Applications of Python and Excel. The trainer taught basic concepts of Excel like Data tools, Date and time functions, Advance filter and vlookup and hlookup. The trainer also taught standard data types , Python libraries and how to do Data Analytics using python to all students.

After each training session hospitality was provided to the trainers.

All the trainers have good knowledge in all the programming concepts. All topics were explained well with examples and the classes were interactive. The trainers discussed possible interview questions of every topic and also gave interview tips.

CHILDREN'S EDUCATION SOCIETY (Regd.)

E-mail: engprincipal@theoxford.edu Web: www.theoxfordengg.org

Outcomes:

1. Students got an understanding of Data Analytics to integrate with different environment innovatively.
2. Students got an innovative idea on how to design the frameworks using data analytics environment.
3. Students can able to design different models innovatively by using data analytics tools.

Student's feedback: Students were satisfied with course content and the way the training sessions were conducted.

The Department’s of Biotechnology, organized Add On program on **“Know your intellectual property – Series 2”** in association with CSIR-IMMT, KSCST and VTPC from 13th to 29th July. The main aim of the workshop was to impart greater awareness about the issue of IPR to the teaching and research fraternity and enable them to utilize it.

The main objectives of the program were:

- To understand patentability criteria in detail and viable aspect of the patent.
- To understand and asses the importance and scope of IPR in academic researches.
- To understand types of innovations patentable & how to test patentability of innovations.
- To understand procedure of patent writing, patent filing and the process of granting patent.
- Indian IPR policy and facility extended for filing.

 Cordially invites you to the Inaugural Ceremony of
ADD ON PROGRAM ON
"KNOW YOUR INTELLECTUAL PROPERTY SERIES -2"
 From 13th to 29th July 2023
 On 13th July at 10:00 am

PRESIDED BY	CHIEF GUEST	
Dr. S. N. V. L. NARASIMHARAJU Chairman The Oxford Educational Institutions	Dr. U. T. VIJAY Executive Secretary KSCST, Bangalore	
GUEST OF HONOUR	ADDRESS BY	CONVENOR
Dr. T. PAVAN KUMAR Senior Scientist – Chemistry & IPR CSIR-IMMT Bhubaneswar	Dr. N. KANNAN Principal The Oxford College of Engineering	Dr. MANJUNATHA B K Professor & Head Department of Biotechnology The Oxford College of Engineering

The Program was inaugurated on an online mode using Google meet platform by the chief guest, Dr. U. T. Vijay, Executive Secretary, KSCST, Bangalore, who delivered key note address on the program. Dr. N. Kannan, Principal of The Oxford College of Engineering presented an overview of the workshop and emphasized on the need for greater level of understanding of IPR in the academics and its utilization for minimizing the gap between industry and academia. Professor and Head of Department of Biotechnology, Dr. Manjunatha B K addressed the gathering stressing on the importance of protecting and patenting the innovations in the present-day scenario in the field of Engineering. The inaugural session concluded with vote of thanks.

Dr. Kapil Arya took the session on "Patentability Criteria" to kick off the first technical session from Day 1 to Day 4(13/07/23 to 17/07/23). He focused on the three key requirements of originality or newness, utility or usefulness (capable of industrial application), and non-

obviousness. Ms. Priyanka presented the second technical session. She gave a professional presentation on "Patentable and Non-Patent Subject Matters," shedding light on activities including writing, painting, sculpting, choreographing, and cinematography that are covered by "The Indian Patent Act."

The next session for From Day 5 to Day 7(18/7/23 to 20/7/23) was started with offline lecture presented by Mr. Nagarjun M G, project associate at Karnataka State Council for Science and Technology, IISc campus Bengaluru, explaining Intellectual property rights are the rights given to persons over the creations of their minds. His topic was "Industrial Design Protocol" that gave insights on his role at the Patent Information Centre (PIC) and Technology and Innovation Support Centre – TISC, WIPO of KSCST Communication activities and detailed on the IP filings i.e. patents, copyrights, trademarks, designs, Establishment of IP Cells, Institutional Policymaking, visitor consultations and other projects and programs of the Patent Information center. Furthermore, for women candidates, he highlighted the KIRAN IPR programme of DST and TIFAC where the programme provides on job training on IPR for selected women candidates under this scheme at KSCST.

The session from Day 8 to Day 10(21/7/23 to 24/7/23) had an talk on "Genome Editing" by Dr. Basavaprabhu Patil L, Principal scientist, Division of Basic science (Biotech Unit) at ICAR-IIHR, Bangalore. He explained the development of virus resistant Transgenic Cassava and also about present plant virology, molecular biology, genome editing, RNA interference, double stranded RNA based disease control, host-pathogen interaction, virus induced gene silencing and editing researches.

The Session from Day 11 to Day 13(25/7/23 to 27/7/23) resource person was Dr. Lipika who touched on the topic of "Patent drafting", where the participants gained an in-depth knowledge of how to draft a patent , her talk included the topic as how every patent claim needs a preamble, which is the introductory phrase in a claim the resource person include examples from various domains not restricting to biotechnology but also covered chemical technology, pharmaceuticals, software programs and also integrated circuits. The participants could gather knowledge about claims in patents and highlighting the novelty of innovation,. The session was most fruitful as the session was very interactive in context of clearing doubts and queries.

The session Day 14 to Day 15(25/7/23 to 27/7/23) was handled by Dr. Pavan Kumar T, his talk was on “Essentials of patent-structure and significance” where explanations of underlying patent law concepts that the specification is designed to address were detailed. At the end of his note was a section which guides applicants in checking a specification that we prepare on their behalf.

A panel of experts was invited on the dias to address the doubts and queries raised by the participants.

The workshop ended with valedictory function and the organizers, collected opinions and feedback from the participants. The workshop was successful in bringing awareness on patenting and the various opportunities available in Government policies to promote the innovation and patenting. It helped the participants in understanding the role of organizations like IMMT, KsSCST and VTPC in promoting the patent awareness. The participating faculty and students of The Oxford College of Engineering greatly benefited by the workshop and appreciated the effort for organizing such a informative, brain storming, educative sessions. On behalf of all participants, we express our deep gratitude to the collaborators for their kind support and we expect more such associated activities to spread awareness on Innovation and patenting in Academic Institutions.

Lecture Session in blended mode by Mr. Nagarjuna, Project associate, KSCST

Guest Talk on Genome Editing By Dr. Basavaprabhu Patil, Scientist IIHR

Session in progress in a Blended Mode

Impact analysis and Outcome

The workshop organized with an intention to reach out to the academic community in bringing awareness and in depth understanding of IPR witnessed an overwhelming response from the participants. Over 130 registrations were obtained from various organizations both academic and

non academics, and the participants were students from various streams of engineering sciences, pharmaceuticals, biotechnology etc, and faculties from professor cadre to readers and research scholars.

Active participation of around 106 participants was witnessed where the online session was attended and 84 participants attended both online & offline sessions.

The feedback collected saw a response where the skills & knowledge of the resource persons were well appreciated and organizing team received requests to organize more such programs. Many participants even preferred workshops on further advanced sessions. Owing to the highly positive response organizing committee is motivated and also plans to conduct hands on session in detail in the future.

Add on report on Python Programming using Django

Department Of Mechatronics Engineering & Biotechnology organized add on course Python Programming using Django for 3rd year (6th sem) students from 14/8/2023 to 9/9/2023.

The course duration was for 20 days for 2 hours, the timing of the course was from 6:00 PM to 8:00 PM.

About Python Programming using Django

- Python is a high-level, general-purpose programming language. Its design philosophy emphasizes code readability with the use of significant indentation.
- Python is dynamically typed and garbage-collected. It supports multiple programming paradigms, including structured object-oriented and functional programming.
- It is often described as a "batteries included" language due to its comprehensive standard library.
- Python is a multi-paradigm programming language. Object-oriented programming and structured programming are fully supported, and many of their features support functional programming and aspect-oriented programming.
- Django is a high-level Python web framework that encourages rapid development and clean, pragmatic design. Built by experienced developers, it takes care of much of the hassle of web development, so you can focus on writing your app without needing to reinvent the wheel. It's free and open source.

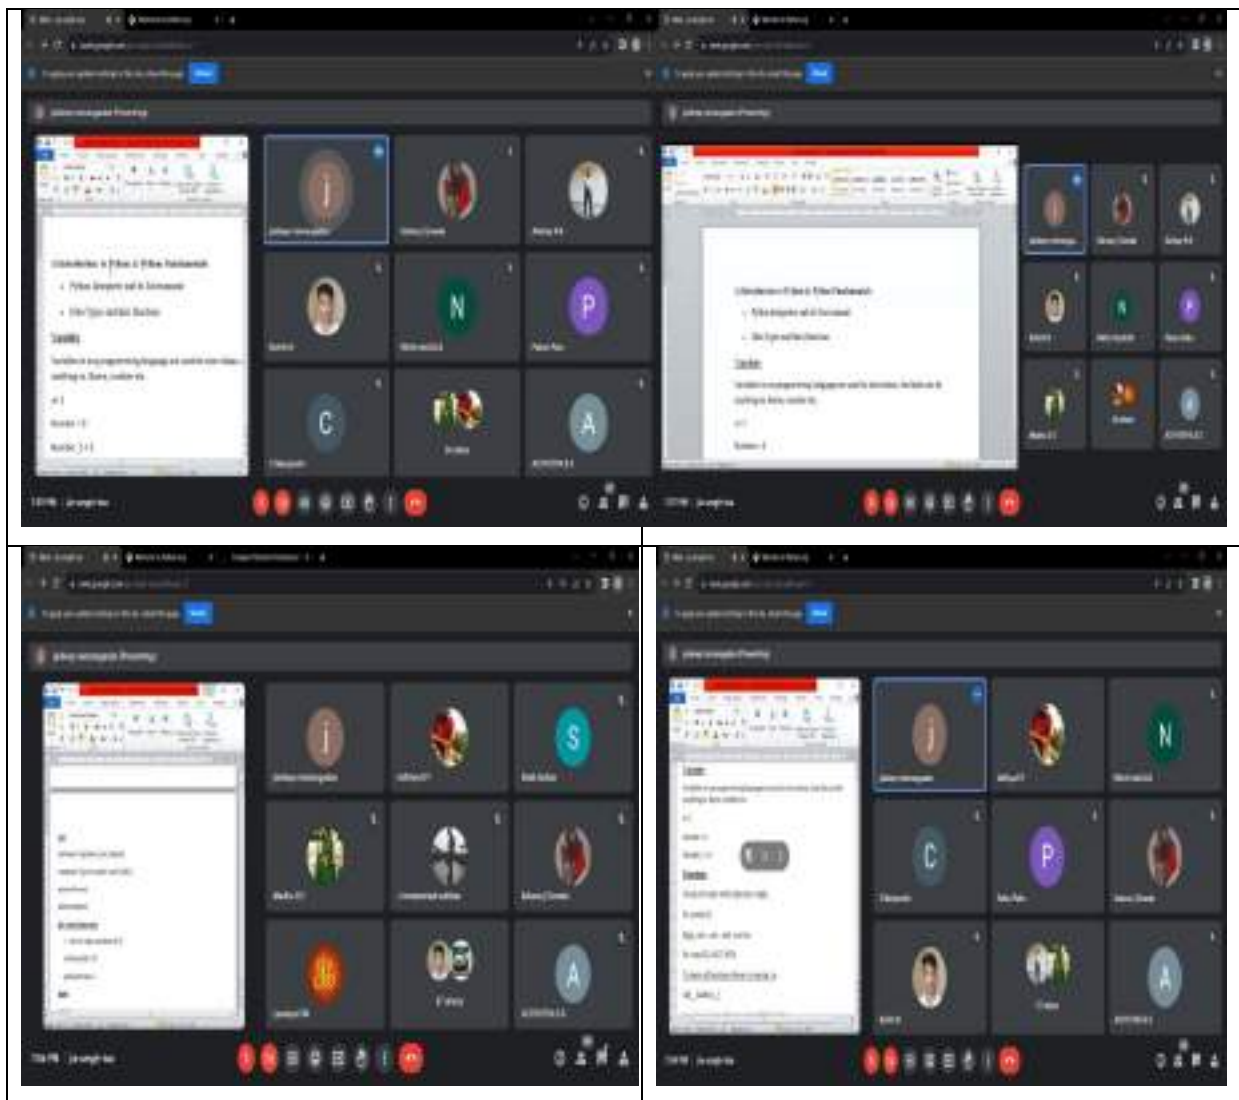

Topics covered during the session

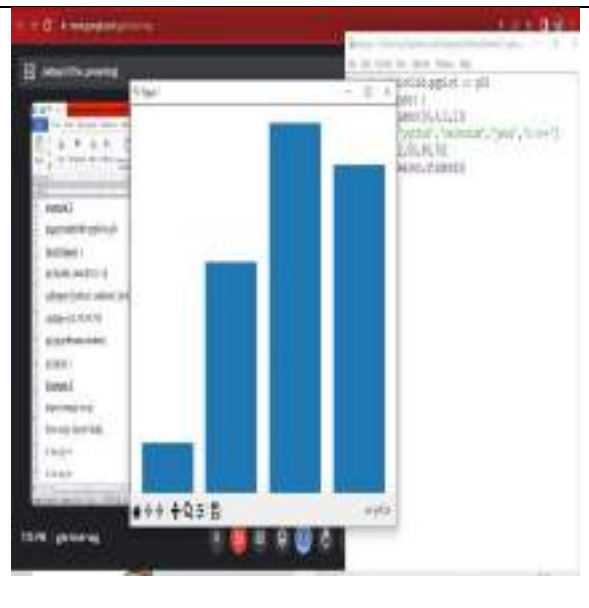

- Basics of python
- Intermediate of python
- Functions of python
- Static code analysis
- Debugging in python
- Regular expressions'
- Django
- Web development using Django

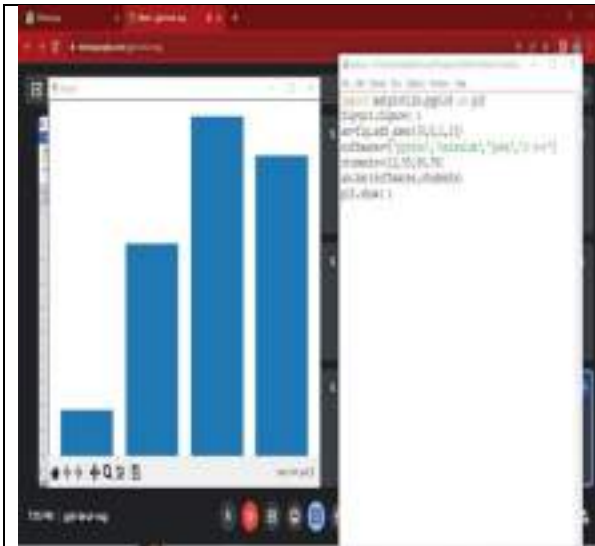

Outcomes of the session:

- Create your first program in Python IDLE &PyCharm.
- Implement OOPs concepts in your programming.
- Create an application with the support of graphics in Python.
- Implement error handling.
- How to create routes with Django .
- How to serve static content and files using Django .
- How to connect templates with models to serve data dynamically.
- How to create Models and how to connect them with Templates and Views.

To

Karunya Paul

Associate UX Designer,

Live your best life(LYBL)

Dear Ma'am,

Sub: Conducting Add on Course – reg

In order to provide Add on course for our MBA Students, we would like to invite Karunya Paul, Associate UX Designer, Live your best life (LYBL). In our department, 83 students are studying. For our students in the month of June, we plan to have an add on course. According to our telephonic conversation, please schedule 30 hours of add on course. In order to confirm dates June 19, 2023 – June 28, 2023, Kindly call as soon as possible.

Thanking You

Yours Sincerely,

COURSE LAYOUT

Module 1 - The Process of Communication (5 hours)

- Overview of Communication
- Meta-Communication
- Essential Communication Skills
- Effectiveness of Communication

Module 2 - Professional Writing - The Basics (5 hours)

- Written Business Communication Basics
- Being Managerially Appropriate
- Getting it Write the First Time

Module 3 - Professional Writing - Applications (5 hours)

- Business Correspondence
- Reports and Summaries
- Informative and Persuasive Communication

Module 4 - Oral Communication (5 hours)

- Fundamentals of Oral Communication
- Glossophobia and Lack of Confidence

Module 5 - Presentations (5 hours)

- Making Professional Presentations
- Plan and Prepare
- Practice and Perform

Module 6 - Interpersonal Skills (5 hours)

- Introduction to Interpersonal Communication
- Behavior and Communication
- Personality and Communication

REPORT ON ADD ON COURSE

EFFECTIVE BUSINESS COMMUNICATION FOR INDUSTRIAL PERSPECTIVES

JUNE 19, 2023 – JUNE 28, 2023

COURSE DESCRIPTION

In a business scenario, communication includes written letters, summaries, and emails. Clear communication skills are needed for impactful oral presentations in front of an audience. Even everyday practices like participating in meetings and managing interpersonal communication are key to achieving long and short-term business goals.

This course will help you improve these communications skills by exploring the inherent challenges and providing techniques to help overcome hurdles.

COURSE OUTCOMES:

- Gain a solid understanding of the fundamental principles of communication, including its purpose, process, and importance in the business context.
- Develop strong oral communication skills, including the ability to deliver clear and persuasive presentations, participate in meetings, and engage in effective verbal communication.
- Enhance your written communication skills by learning how to craft professional emails, reports, memos, and other business documents with clarity, conciseness, and correctness.
- Improve your ability to engage in meaningful and productive conversations with colleagues, clients, and stakeholders, fostering positive professional relationships.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS

Academic Year 2022-2023

Report

Title: Add on Course on “AWS Cloud Practitioner Certification”

Objective: To provide training on AWS, Cloud Computing skill and prepare them to industry ready requirements.

Date: 26thDecember2022to3rdMarch2023

Time: 4:00PM to 5:00PM

Location: The Oxford College of Engineering

Organized by: TeamLease EdTech Ltd,Bangalore

Audience: Students of MCA

Speaker: Mr. Prabhakar Kumar

Method Adopted: Theory and practical sessions along with hands on sessions

Materials Used: AWS console account

Description (only 10-15 lines): The Training was planned for the AWS Cloud Practitioner Certification for the students which would help them in their career, placements and their final year project work. All the sessions were well organized and it was also fully practical based session. Students were also exposed to interview questionnaires and real-life projects. They have been trained with the advanced tools for solving problems, projects and interview questions.

Outcome:

Students will be able

- Enhanced employability: Obtaining the AWS Cloud Practitioner certification as a student can make you more attractive to potential employers. It demonstrates that you have a foundational understanding of cloud computing and are committed to developing your skills in this area.
- Access to AWS resources: As an AWS certified professional, you'll have access to AWS resources, including online training courses, whitepapers, and technical documentation. This can help you to continue your learning journey and stay up-to-date with the latest cloud computing trends and best practices.

- Preparation for advanced certifications: The AWS Cloud Practitioner certification is a prerequisite for many advanced AWS certifications. By obtaining the AWS Cloud Practitioner certification, you'll be laying the groundwork for further certification and career advancement.
- Recognition and credibility: The AWS Cloud Practitioner certification is recognized worldwide as a standard of expertise in cloud computing. It gives students credibility and validates their understanding of the cloud and AWS services.

AWS Certified Cloud Practitioner

Notice of Exam Results

Candidate: Ashok Kumar	Exam Date: Mar 04, 2023
Candidate ID: AWS03434156	Registration Number: 443832865
Candidate Score: 827	Pass/Fail: PASS

Congratulations! You have successfully completed the AWS Certified Cloud Practitioner and you are now AWS Certified.

The AWS Certified Cloud Practitioner (CLF-C01) has a scaled score between 100 and 1,000. The scaled score needed to pass the exam is 700.

As a reminder, you are bound by the [Candidate Code of Conduct](#) you accepted when taking your exam, and you are expected to keep the contents of the examination secure. If you have any questions or require assistance, please [contact us](#).

Congratulations again on your achievement and the ability to claim the associated benefits, such as digital badges and discount vouchers for future exams. To take advantage of the benefits associated with your AWS Certified Cloud Practitioner certification, explore the “Benefits” section of your [AWS Certification Account](#).

Thank you,

AWS Training and Certification

AWS Certified Cloud Practitioner

Breakdown of Exam Results

The information in the table below details the composition of the AWS Certified Cloud Practitioner and your performance in each of the exam sections. The table includes the classifications of your performance at each **section level**.

This information is designed to provide general feedback concerning your examination performance. The examination is scored using a compensatory scoring model, which means you do not need to “pass” the individual sections. Please keep in mind that each section has a specific weighting on the examination, so some sections have more questions than others. This information is general in nature, highlighting your strengths and weaknesses.

Meets Competencies: Performance at this level demonstrates knowledge, skills, and abilities expected of a passing candidate.

Needs Improvement: Performance at this level does not demonstrate knowledge, skills, and abilities expected of a passing candidate.

Section	Score Performance		
	% of Scored Items	Needs Improvement	Meets Competencies
Domain 1: Cloud Concepts	26%		
Domain 2: Security and Compliance	25%		
Domain 3: Technology	33%		
Domain 4: Billing and Pricing	16%		

Disclaimer: AWS Certification exams are designed to make pass/fail decisions based on the total exam score. Section level results are designed to provide direction on areas where a candidate may be weak. Candidates should exercise caution when interpreting the above section level score information as it is less reliable than the total exam score and not intended to guide future test performance.
