Department of Biotechnology

An outreach program on “Government School Beautification” was organized by the 6th semester students of the Department of Biotechnology on the 24th of September, 2022 in association with the Youth for Parivarthan organization at Herohalli, Sunkadakatte, Bengaluru, Karnataka.

Cleanliness is the act of keeping our body, mind, dress, home, surroundings and other work areas neat and clean. Cleanliness of the body is very necessary for our physical and mental health. Cleanliness of the surrounding areas and environment is very necessary for the social and intellectual health.

Volunteering to serve the community is not only beneficial to the individuals involved but it is necessary in creating better societies for all. Volunteering work in our societies basically involves sharing and friendship through which people can find out what others need so that they can work on assisting them in all ways possible. Through volunteer work, many people's lives are changed be it through words or material assistance.

Government school beautification involves the process of painting the walls of the school as per the colour code for a government school and filling the walls with quotes that enlighten the minds of the students. Having a clean surrounding around the school is necessary for maintaining the health of the students. Therefore, being the young citizens of the country, we the students of 6th semester went to Herohalli government school as volunteers of the Youth for Parivarthan organization and transformed a school that was not much pleasing to look into a beautiful place filled with colours on the walls.

An outreach program on “Spot Fixing” was organized by the 7th semester students of the Department of Biotechnology on the 2nd of October, 2022 in association with the Youth for Parivarthan organization near Leprosy Hospital, Tank Bund Road, Binnypet, Bengaluru.

Cleanliness is the act of keeping our body, mind, dress, home, surroundings and other work areas neat and clean. Cleanliness of the body is very necessary for our physical and mental health. Cleanliness of the surrounding areas and environment is very necessary for the social and intellectual health.

Volunteering to serve the community is not only beneficial to the individuals involved but it is necessary in creating better societies for all. Volunteering work in our societies basically involves sharing and friendship through which people can find out what others need so that they can work on assisting them in all ways possible. Through volunteer work, many people's lives are changed be it through words or material assistance.

There is an increasing need for cleanliness all around the country and this can be achieved only by the support of the citizens of the country. Cleanliness drive is one of the best ways to start eliminating the accumulation of wastes and inculcating the sense of responsibility in each and every citizen of the country. Being the young citizens of the country, we the students of 7th semester went near Leprosy Hospital, Tank Bund Road, Binnypetas volunteers of the Youth for

Parivarthan organization and transformed a place that was not much pleasing to look into a beautiful place filled with art on the walls.

Blood donation refers to a practice where people donate their blood to people so it helps them with their health problems. Blood is one of the most essential fluids of our body that helps in the smooth functioning of our body. Thus, blood donation is life-saving which helps people. It is also a sign of humanity that unites people. Blood donation has a lot of benefits. A person requires blood for various reasons. It may be an illness or also an accident, nonetheless, it is important. The blood that we donate helps a person in need. It enhances their health condition and makes them overcome their critical situation. Blood donation does not simply help that specific person but also contributes to a responsible gesture towards society. Moreover, it also enhances the health of the donor. It also revitalizes our body for better health.

We, the students of 7th semester, Department of Biotechnology, The Oxford College of Engineering, in association with Youth for Parivarthan and Rashtrathana Blood centre had volunteered for donating our bloods at the camp that was organised at Chamrajpet. The blood collected at the centre is used to treat Thalassemia patients. We also had an awareness session on Thalassemia and the pre-requisites for donating blood.

Report on community outreach programme – A visit to National association for the blind school in Jeevan Bima Nagar on 1st November, 2022.

A community outreach program on “A visit to blind school” was organised by the 5th semester

students of the Department of Biotechnology on 1st November, 2022 in association with the National Service Scheme unit, TOCE organization at Jeevan Bima Nagar.

The objectives of the outreach program were to spend quality time with the students in the blind school and interact with them. As a part of our interactions, we were explained the basic signs and signals they follow in order to communicate with others, especially while crossing roads. They also showed us the instruments which volunteers use to show the route maps.

We also got a chance to see all the amazing talents they had, which includes singing, depicting the accurate time and quick mathematical calculations. We were also briefed about their daily routine and the tasks assigned to them of which one of them is, telling them the route map and asking them to go to the shop and come back alone. We were shown the way they walk and check for obstructions. Two of us were asked to try to walk with blind folds same as the way they walk, which clearly showed us that we cannot walk as confidently as they do.

All the students there were graduates of which few are teaching online, few are pursuing higher studies, few learning courses, trying for jobs and few were working. It was so inspiring to see them dream big and achieving their goals. Seeing them climbing the stairs, assembling at the dining area, and doing prayers just showcases their confidence. It will be amazing if all of us have the same level of confidence and positivity.

After the interactions and spending quantitative time with them, food kits, fruits, snacks, and essential kits were distributed to all of them. They all were very happy interacting with us and we

were all very satisfied visiting this place as we got a chance to interact with such kind hearted and talented people.

An outreach program on “Spot Fixing” was organized by the 7th semester students of the Department of Biotechnology on the 8th of January, 2023 in association with the Youth for Parivarthan organization at Railway Parallel Road, Kumara park, Bengaluru.

Cleanliness is the act of keeping our body, mind, dress, home, surroundings and other work areas neat and clean. Cleanliness of the body is very necessary for our physical and mental health. Cleanliness of the surrounding areas and environment is very necessary for the social and intellectual health.

Volunteering to serve the community is not only beneficial to the individuals involved but it is necessary in creating better societies for all. Volunteering work in our societies basically involves sharing and friendship through which people can find out what others need so that they can work on assisting them in all ways possible. Through volunteer work, many people's lives are changed be it through words or material assistance.

There is an increasing need for cleanliness all around the country and this can be achieved only by the support of the citizens of the country. Cleanliness drive is one of the best ways to start eliminating the accumulation of wastes and inculcating the sense of responsibility in each and every citizen of the country. Being the young citizens of the country, we the students of 7th semester went to Railway Parallel Road, Kumara park as volunteers of the Youth for Parivarthan organization and transformed a place that was not much pleasing to look into a beautiful place filled with art on the walls.

An outreach program on “Knock Out Session” was organized by the 8th semester students of the Department of Biotechnology on the 19th of March, 2023 in association with the Youth for Parivarthan organization at Banashankari, Bengaluru.

Self-defence is an important skill for everyone, regardless of gender. However, because women are often more vulnerable to violence, it is especially important for women to know how to defend themselves. Few of the tips includes, being aware of the surroundings, trying to avoid walking alone at night, trusting one's instincts, learning self-defence techniques by attending classes or workshops, carrying some self-defence tools, practising assertiveness, staying in communication with others. Keeping in view, the rising number of crimes against girls in the country, it is important to provide self-defence training to them to ensure their safety and security. Self-defence training is a life skill that helps girls to be more aware of their surroundings and to be prepared for the unexpected at any time. Through self-defence training, the girls are taught to become psychologically, intellectually and physically strong enough to protect themselves in times of distress. Self defence training techniques in stills self confidence amongst girls.

Being the young citizens of the country, we the students of 8th semester went to Banashankari as volunteers of the Youth for Parivarthan organization to attend the knock out session in order to learn few self-defence techniques. The self-defence session taught us about various defence techniques that helps anyone during critical situations or during in times of need.

An outreach program on “Be a Hero” was organized by the 8th semester students of the Department of Biotechnology on the 8th of April, 2023 in association with the Youth for Parivarthan organization at The Oxford College of Engineering seminar hall.

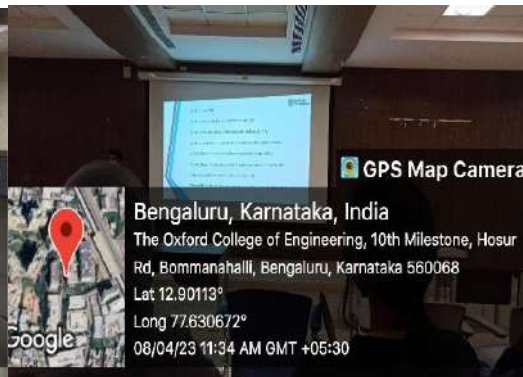

Sexual harassment is a form of gender-based discrimination that involves unwelcome sexual advances, or other verbal or physical conduct of a sexual nature that creates an intimidating, hostile, or offensive work or educational environment. It can occur in a variety of settings, including the workplace, schools, and public places.

It is important to raise awareness about sexual harassment to help prevent it from happening and to provide support for those who have experienced it.

Sexual harassment can take many forms: Sexual harassment can involve physical contact or can be verbal, such as sexual jokes or comments. It can occur in person, over the phone, or online. It is illegal: Sexual harassment is illegal under federal law and is prohibited by most employers and educational institutions. Victims of sexual harassment may have legal recourse and should consider reporting the harassment to their employer or institution. Consent is key. It is important to remember that all sexual activity must be consensual. This means that both parties must agree to participate and have the capacity to make that decision. It affects everyone: Sexual harassment can happen to anyone regardless of gender, sexual orientation, or age. Prevention is key: Creating a culture of respect and zero tolerance for sexual harassment is crucial in preventing it from happening. This can involve training programs for employees and students, clear policies and procedures for reporting harassment, and swift action when harassment is reported. Support is available: Those who have experienced sexual harassment should know that they are not alone and that support is available. This can include counselling, legal advice, and advocacy.

By increasing awareness on sexual harassment, we can work towards creating a safer and more equitable society for all. The awareness session titled “Be a Hero” was about the sexual harassment that gave us insights about the reality and the recent cases on the same. We the students of 8th semester from the Department of Biotechnology could gain a lot of information on safety measures to be taken in order to stay safe.

A REPORT ON

World Bicycle Day 2023

On

5th June 2023

By

NSS UNIT

THE OXFORD COLLEGE OF ENGINEERING

National Service Scheme

World Bicycle Day 2023

On

5th June 2023

World Bicycle Day is an annual event celebrated on **June 3rd**. It was established by the United Nations General Assembly in 2018 to recognize the bicycle as a simple, affordable, reliable, clean and environmentally fit sustainable means of transport. The selection of this date is significant as it commemorates the anniversary of the invention of the bicycle by **Karl von Drais in 1817**. The United Nations General Assembly officially designated this day in April 2018 to honor the bicycle's exceptional qualities, durability, and versatility, considering it has been utilized as a practical mode of transport for over two centuries. The UN recognized the bicycle as a straightforward, cost-effective, dependable, eco-friendly, and sustainable means of transportation.

The World Bicycle Day 2023 was celebrated at The Oxford College of Engineering Campus with great zeal. The NSS unit of TOCE organized a bicycle rally in celebration of World Bicycle Day on June 5th 2023. In total 200 students and 25 faculty members from various departments have participated.

Dr, N Kannan, Principal, TOCE flagged off the event at the campus. The students from various departments of TOCE participated in the rally.

Banner

As **India** gears up to celebrate the 75th anniversary of Independence, the central government has kickstarted a campaign called Har Ghar Tiranga to invoke the feeling of patriotism in all citizens. The campaign is part of Azadi ka Amrit Mahotsav.

The Oxford College of Engineering students conducted Har Ghar Tiranga campaign on Saturday, 13th August, 2022 to encourage participants to hoist national flag atop their houses as part of Azadi Ka Amrit Mahotsav (AKAM) to commemorate 75 years of Independence. The

students conducted the campaign by carrying a national flag in their hand. They raised slogans like Mera Bharath Mahan and Bharat Mata ki Jai

The function began with a brief introduction of AZADI KA AMRIT MAHOTSAV – HAR GHAR TIRANGA CAMPAIGN by Dr. M S Sashidhara, HOD- MCA.

Dr. N Kannan, Principal said that as per the call given by Prime Minister Narendra Modi, Har Ghar Tiranga campaign was conducted. He reminded that PM Modi had announced recently that Har Ghar Tiranga will be held from August 13 to 15. He observed the campaign will infuse patriotism, will event remind our national leaders and also will increase patriotic fervor among students.

Dr. K M Ravikumar, Director said that the campaign is meant to remember our freedom fighters, known and unknown and pay tributes to them. He appealed to the people to hoist the national flag atop their houses, shops and industries between August 13 to 15 as a part of AKAM celebrations. Before the campaign, the students have participated in Quiz competitions, Essay Writing and Singing competitions conducted by NSS unit, The Oxford College of Engineering in association with AICTE-SPICES CLUB (ABHILASHA).

HODs, Faculty members of all departments, Non- Teaching staff and students of all branches were participated on the occasion.

India is celebrating the 75th anniversary of its independence with the Azadi Ka Amrit Mahotsav campaign. As part of the Mahotsav or grand celebration, several events and campaigns have been organised for 75 weeks to celebrate independence and the glorious history of India's people, culture and achievements. The journey of Azadi Ka Amrit Mahotsav began on March 12, 2021, starting a 75-week countdown to our 75th anniversary of independence.

THE OXFORD COLLEGE OF ENGINEERING, BANGALORE with its NSS unit and Department of Physical Education celebrated the Nation's 75th Independence Day, Azadi Ka Amrit Mahotsav and remembered with gratitude the sacrifice of the freedom fighters. Dr. N Kannan, Principal, TOCE of the college unfurled the tricolor flag.

The function began with Plantation drive in the campus, followed by flag hoisting by the Principal Dr. N Kannan, at 9.00AM and a brief introduction of AZADI KA AMRIT MAHOTSAV – 75th Independence Day . On this occasion he said that India is celebrating its 75th Independence day which is themed as '75th Azadi ka Amrit Mahotsav.' Although we are independent from foreign invaders and are governing our nation for 75 years, there lies a long struggling story in attaining this freedom. We are successfully governing our country and moving towards becoming a developed nation from a developing one and leaving its mark on the world map.

HODs, Faculty members of all departments, Non- Teaching staff and students of all branches were participated on the occasion.

The programs included dance, singing, dancing, and other cultural events by the students.

Report on “ Blind School Visit ”

On 10th February, 2023, the students of The Oxford College of Engineering, Department of Information Science and Engineering organized an event to understand the problems of visually impaired kids and how the school provides primary and secondary education to visually impaired students. They could understand how these kids are educated at the school.

This was an eye opener visit where 18 volunteers from ISE 2nd Year visited the Blind School in Indiranagar, Bangalore . **Sri Rakum School For The Blind And The Sighted Unprivileged**, The school was founded by Acharya Sri Rakum in June 1998. He left behind a career in martial arts in Japan and India, to develop the school. He is currently the principal of this school. It is a Free Residential School for the Visually Impaired and for the Sighted-under privileged. they are over two-decades-old and are constantly growing to accommodate more children. The focus is on education and all-round development of the child, they believe in the principle of inclusion and full participation ,they provide Completely Free Education, Lodging, and Boarding from Kindergarten to Post Graduation

Orphanage is home for 60 Blind Children , between 4 to 25 years of age, We reached the Orphanage at around 12:30 PM. The children of Sri Rakum School For The Blind And The Sighted Unprivileged were very pleasantly excited to receive the members. The students greeted us with great enthusiasm. We also met the caretaker. While interacting with the caretaker, we got to know the history of the orphanage, how it was established.

After that student volunteers distributed the snacks to the children. The students interacted with the children. They also engaged them with various games and fun activities. All the children looked so excited and joyful.

The team spent an about one and a half hour with the children before saying good bye to them. It was indeed very satisfying experience for students, as they could bring smiles on children faces. They realized that one contribute and understand his/her social responsibilities towards society.

Report on "TEMPLE CLEANING"

To create an awareness of keeping the temple neat and clean without leaving garbage, dust or meditation cushions in disarray ,Hence, the **Department of Information Science and Engineering of The Oxford College of Engineering** in collaboration with NSS [National Service Scheme] organized an event on the **Awareness Of Temple Cleaning** on 10th February, 2023.

The main purpose of this event was to keep the temple neat and clean, that approach is like going to a huge fair in a big city, where the following day the whole environment is filled with broken cups, bottles and other rubbish , Despite this obvious comparison, most people clean the temple without any kind of excitement or devotion. If we know the virtue, merit, and purpose of cleaning, we will be able to appreciate the task as a privilege rather than a burden. It will no longer seem like dirty work, but an opportunity to practice meditation in a unique way. It might even become an amazing source of benefit and a way for us to grow in spiritual, mental and emotional strength. It then becomes similar to doing prostrations and circumambulations, because these things are all physical and mental exercises in devotion.

Some of you may remember when an important Rinpoche came to our temple to see Kyabje Dodrupchen Rinpoche. There were about forty, fifty people with him, and none of them used the bathroom that is attached to our temple. Even Rinpoche availed himself of the little out-house in the woods. Rinpoche expressed that kind of respect, dedication, and devotion as an example to his students. He did not need to do it for his own benefit but in order to maintain the cleanliness of the temple. If Rinpoche himself refused to use the inside toilet, all fifty of his students had to do the same. All of this has a very specific purpose, and I have chosen this subject matter from the Dodrupchen Rinpoche's text in order to clarify that purpose.

‘WATER CONSERVATION CAMPAIGN-JAL SHAKTI ABHIYAN’

Name of The Event	‘WATER CONSERVATION CAMPAIGN-JAL SHAKTI ABHIYAN’
Month of event	15.09.22
Venue	Krupanidhi PUC College Madiwala, Bangalore
Discussed Topic	Creating awareness among the students for water Jal shakti mission
Organized by	NSS Unit in association with MCA Department
No. of Participants	49

Inspired by the Hon’ble Prime Minister’s impetus on Jal Sanchay, the Jal Shakti Abhiyan (JSA) is a time-bound, mission-mode water conservation campaign. The JSA will run in two Phases: Phase 1 from 1st July to 15th September 2022 for all States and Union Territories; and Phase 2 from 1st October to 30th November 2022 for States and UTs receiving the retreating monsoon (Andhra Pradesh, Karnataka, Puducherry and Tamil Nadu). During the campaign, officers, groundwater experts and scientists from the Government of India will work together with state and district officials in India’s most water-stressed districts* for water conservation and water resource management by focusing on accelerated implementation of five target intervention. The JSA aims at making water conservation a Jan Andolan through asset creation and extensive communication.

NSS unit of The Oxford College of Engineering, Bangalore organised 1-day ‘Swachhata Pakhwada’ with the theme of ‘Jal Shakti Abhiyan’ in the campus on September 11th, 2022.

As part of the ‘Jal Shakti Abhiyan’, the college has formed a team of volunteers from department of Civil Engineering to study and monitor the status of the following water conservation activities:

- Water conservation
- Renovation of traditional and other water bodies/tanks
- Ensuring all water cycling plant is functional.

Also the team has organised awareness campaign on Water conservation, functioning of water cycling plant to first year engineering students in the campus.

Working Principle of Sewage Treatment Plant

1. The Sewage water (containing bathroom and kitchen waste) from entire college as well as the hostel buildings are received through the underground pipe lines.
2. It is passed through grid chamber, bar screen chamber and degreasing chamber. In the grid chamber heavy density materials like sand are removed. In the bar screen chamber floating material like leaves are separated. When the Sewage is passed through degreasing tank the floating greasy (Oily substances) materials are scrubbed away from the degreasing tank.
3. Then the Sewage is transferred to collection tank.
4. From the collection tank, Sewage is pumped to Bio reactor (Aeration tank). In the Bio reactor the Sewage is digested by aerobic bacteria using sewage as food materials.
5. The above treated water is passed through the sludge settling tank. From here the sludge is separated and passed to Sludge drying beds. After drying the sludge, it is used as natural organic manure for our gardening.
6. After removing the sludge, the water is collected in a separate collection tank.
7. This water is then pumped to sand filter and activated carbon filter. In the sand filter suspended particles are removed. In the carbon filter, any odour in the treated water is removed.
8. The filtered water is then collected in a sump. From this sump, the water is pumped to the entire college Gardens through over head tank

Demonstration of STP to participants
At the end they have addressed the students regarding the importance of Recycling of water and reusing of treated wastewater in engineers' life.

REPORT ON "JALJATIYA GAURAV DIWAS"
15 TH NOVEMBER 2022

BY
TOCE NSS UNIT

Report on Jaljatiya Gaurav Diwas

Date : 17.11.2022

We, The Oxford College of Engineering organised two events for Celebrating Jaljatiya Gaurav Diwas (Birth Anniversary of Bhagwan Birsa Munda) . In this connection, we TOCE-NSS Unit conducted Debate and Essay writing Event for our Students. Topic for Essay writing is **“Significant Contribution of Unsung Janjati Heroes in Freedom struggle”** and topic for Debate is **"Contribution of Janjati Heroes in Freedom Struggle "**.

The poster and link for registration sent to all the department students for registration and made wide publicity for that event. Both the events were arranged on 15/11/2022 on 147 th Birth Anniversary of Bhagwan Birsa Munda. He was an Indian tribal freedom fighter, and folk hero who belonged to the Munda tribe. He spearheaded a tribal religious millenarian movement that arose in the Bengal Presidency (now Jharkhand) in the late 19th century, during the British Raj, thereby making him an important figure in the history of the Indian independence movement. The revolt mainly concentrated in the Munda belt of Khunti, Tamar, Sarwada and Bandgaon.

Birsa received his education in Salga under the guidance of his teacher Jaipal Nag. Later, Birsa converted into a Christian to join the German Mission School but soon dropped out after finding out that Britishers were aiming to convert tribals to Christianity through education. After dropping out of school, Birsa Munda created a faith called 'Birsait'.

Members of the Munda community soon started joining the faith which in turn became a challenge for the British conversion activities. The cause of the Munda revolt was the 'unfair land grabbing practices by colonial and local authorities that demolished the tribal conventional

land system' Birsa Munda is known for challenging the Christian missionaries and revolting against the conversion activities along with the Munda and Oraon communities. His portrait hangs in the Indian Parliament Museum. Ten students from B.E course participated in Essay Writing Event. 7 Students were participated in Debate Event for remembering and the mark of celebration of Birsa Munda's Birth anniversary. The students were given overview and importance of tribal communities freedom fighters and their struggle. Culture, Monuments about their tradition also. Certificates will be given for the students participated on both the events.

With the support of our Management, Principal, HODs it went well with full support.

A REPORT ON

‘MAHARA SANKRANTHI FESTIVAL’

Organised by

TOCE NSS UNIT

On

13 th January 2023

THE OXFORD COLLEGE OF ENGINEERING

HOSUR ROAD, BOMMANAHALLI, BANGALORE- 560068

Report on Makara Sankranthi Festival Celebration

Every year Makar Sankranti is celebrated in the month of January. This festival is **dedicated to the Hindu religious sun god Surya**. This significance of Surya is traceable to the Vedic texts, particularly the Gayatri Mantra, a sacred hymn of Hinduism found in its scripture named the Rigveda.

This festival marks the end of the long, cold, winter months and the onset of spring. In ancient times, it was the time when the shift of the sun resulted in longer days. So, it is a celebration of the change of seasons - from a harsher to a milder climate. A sign of hope and positivity.

This festival is celebrated in honor of *Surya* (the Sun God) to pay tribute for the grace of his energy that has enabled life and food on earth. As it is the harvest festival, it is a time of joy, abundance, and celebration in the farming communities, the time when they reap the fruits of their hard labor. It is also a time for peace when families bury the hatchet and get together.

- ✓ Makar Sankranti is celebrated in Karnataka with great joy and enthusiasm.
- ✓ People clean their houses, decorate the entrance with mango leaves and rangolis (decorative designs made with rice flour), and wear new clothes.
- ✓ They exchange ellu-bella (sesame seeds and jaggery) sweets, fried groundnuts, pieces of coconut, sugarcane, and banana, offer haldi and kumkum, and wish each other.
- ✓ Kannadigas also wish their near and dear ones the same way their Marathi neighbors do: 'Ellu Bella tindhu olle mathadu'. It means, 'Eat the ellu (sesame seeds) and bella (jaggery) sweet, and speak sweet words.'
- ✓ Some newlywed women follow a five-year ritual where they give away bananas to other married women. They have to increase the number of bananas they give away each year in multiples of five.

- ✓ People also decorate cows and bulls colorfully with beautiful costumes.
- Some communities fly kites as well.

Celebration of Makara Sankranti Festival on 13.01.2023

We, The Oxford College of Engineering, Bangalore celebrated this Mahara Sankrathi festival on **13.01.2023** with Great Zeal and enthusiasm. TOCE NSS Unit co ordinated all the departments for this arrangement.

Around 3 pm all the Faculty members and the students assembled in the venue. Our beloved Principal Dr.N. Kannan invited all the members and briefed the importance of Shankaranthi Festival celebrated all over India. Dr.Manju Devi , Dr. Kanagavalli involved in the arrangement for the celebration .

With the support of students and faculty members pooja was done and finally sweet pongal was distributed to all the persons. Dr.Taraka Rami Reddy and team members co ordinated well and the celebration went on well.

Date of event	29.03.2023
Venue	Mathrubhoomi, Singasandra
Organized by	MBA Department in association with NSS UNIT- The Oxford College of Engineering
Purpose	To promote education among the needy children.
No. of Participants	55 students and 5 faculty members from MBA
Convenor	Dr. R Srikanth, HOD, MBA, TOCE
Faculty Coordinators	Dr Tharaka Rami Reddy K, Professor Dr.M. Kathiravan , Associate Professor Prof. A Sahana, Assistant Professor, Prof V Lakshmi Suneetha, Assistant Professor

The MBA department of The Oxford College of Engineering conducted an outreach program on 29th March 2023, with a visit to the Mathrubhoomi, a non-profit organization registered under Karnataka Societies Act 1960. It is a residential Hostel for Boys promoting better education, Better Care and better future for boys. Children in this residential hostel have been handpicked from slum areas, children who have lost a parent and who are from slums, wandering around and not going to school.

There are 17 children at the residential hostel aged from 4 to 11 years. They reside at the hostel and attend the school at the government school at the main road. Stationary items comprising of ruled books, lead pencils, colour pencils, blue and red pens were purchased and distributed it to 17 children of Mathrubhoomi.

Department of MBA

Name of The Event	CSR Activity- Contribution to the Underserved
Date of event	29.03.2023
Venue	Samarthanam Trust for the Disabled
Organized by	MBA Department in association with NSS UNIT- The Oxford College of Engineering
Purpose	A small help can go a long way in changing lives of children and the underserved
No. of Participants	55 students and 5 faculty members from MBA
Convenor	Dr. R Srikanth, HOD, MBA, TOCE
Faculty Coordinators	Dr Tharaka Rami Reddy K, Professor Dr.M. Kathiravan , Associate Professor Prof. A Sahana, Assistant Professor, Prof V Lakshmi Suneetha, Assistant Professor

The MBA department of The Oxford College of Engineering conducted an outreach program on 29th March 2023, with a visit to the Samarthanam Trust for the Disabled is a National Award winning NGO established in the year 1997 by Founder Managing Trustee Mahantesh G Kivadasannavar and his schoolmate and childhood friend, Late Sugur Paramashivaiah Nagesh.

Samarthanam, one of the biggest NGOs in India, works for the empowerment of persons with disabilities and the underserved through its diverse initiatives focused on providing quality education, accommodation, nutritious food, vocational training and placement based rehabilitation. It facilitates opportunities to enable persons with disabilities and the underserved to keep pace with the rest of the society.

Today, Samarthanam Trust stands to be a complete solution provider by supporting education and livelihood needs of persons with disabilities and those from underprivileged backgrounds. The organization also facilitates direct livelihood opportunities to hundreds of persons with

disabilities and women in distress through its Social Enterprises. Cricket Association for the Blind in India (CABI), the cricketing arm of Samarthanam, fosters the game of blind cricket and the visually impaired players across India.

The first year MBA students contributed their one day pocket money, and the following items were donated: Rice 13 Kgs, Dhal- 1 Kg, Oil 2 Ltr, Sambar Powder – 2 Packets, Rasam Powder – 2 Packets, Jaggery- 5 kgs and salt 2 kgs

Date: 19/12/2022

It is to inform that , an outreach program of “**Creating awareness among the students for Say No to Drugs** ” will be organized by department of MCA,TOCE for 1st semester MCA students on 26th of December , 2022 at Govt P U College Madiwala , Bangalore.

Venue: Govt Pre University College Madiwala, Bangalore

Timings:10am -11:30 am

Dr. M S Shashidhara

HOD-MCA

Name of The Event	Say No To Drugs
Month of event	26.12.2022
Venue	Govt P U Madiwala, Bangalore
Discussed Topic	Creating awareness among the people about the side effects of drug and help addicts recover from it
Organized by	MCA- The Oxford College of Engineering
No. of Participants	52
Output	<p>Our Faculties and NSS Student Volunteer have given the awareness process on drug consumption.</p> <p>We have successfully provided the information to have awareness and help people and professionals about the system .How Drugs are not the way to deal with stress. They change the way our brain works. This can lead to depression, anxiety, and other mental illnesses. If people are already having a mental health issue, drugs can worsen the condition.</p> <p>The main objective of this program is to make people Understand that it would affect them and even the people around them .Drug awareness enables children, youth and adults to develop the knowledge, skills, and attitudes to appreciate the benefits of living healthily (which may or may not include the use of psychoactive substances), promote responsibility towards the use of drugs and relate these to their own actions and those of others, .</p>

‘WATER CONSERVATION CAMPAIGN-JAL SHAKTI ABHIYAN’

Name of The Event	‘WATER CONSERVATION CAMPAIGN-JAL SHAKTI ABHIYAN’
Month of event	15.09.22
Venue	Krupanidhi PUC College Madiwala, Bangalore
Discussed Topic	Creating awareness among the students for water Jal shakti mission
Organized by	MCA- The Oxford College of Engineering
No. of Participants	49

Inspired by the Hon’ble Prime Minister’s impetus on Jal Sanchay, the Jal Shakti Abhiyan (JSA) is a time-bound, mission-mode water conservation campaign. The JSA will run in two Phases: Phase 1 from 1st July to 15th September 2022 for all States and Union Territories; and Phase 2 from 1st October to 30th November 2022 for States and UTs receiving the retreating monsoon (Andhra Pradesh, Karnataka, Puducherry and Tamil Nadu). During the campaign, officers, groundwater experts and scientists from the Government of India will work together with state and district officials in India’s most water-stressed districts* for water conservation and water resource management by focusing on accelerated implementation of five target intervention. The JSA aims at making water conservation a Jan Andolan through asset creation and extensive communication.

NSS unit of The Oxford College of Engineering, Bangalore organised 1-day ‘Swachhata Pakhwada’ with the theme of ‘Jal Shakti Abhiyan’ in the campus on September 11th, 2022.

As part of the ‘Jal Shakti Abhiyan’, the college has formed a team of volunteers from department of Civil Engineering to study and monitor the status of the following water conservation activities:

- Water conservation
- Renovation of traditional and other water bodies/tanks
- Ensuring all water cycling plant is functional.

Also the team has organised awareness campaign on Water conservation, functioning of water cycling plant to first year engineering students in the campus.

Working Principle of Sewage Treatment Plant

1. The Sewage water (containing bathroom and kitchen waste) from entire college as well as the hostel buildings are received through the underground pipe lines.
2. It is passed through grid chamber, bar screen chamber and degreasing chamber. In the grid chamber heavy density materials like sand are removed. In the bar screen chamber floating material like leaves are separated. When the Sewage is passed through degreasing tank the floating greasy (Oily substances) materials are scrubbed away from the degreasing tank.
3. Then the Sewage is transferred to collection tank.
4. From the collection tank, Sewage is pumped to Bio reactor (Aeration tank). In the Bio reactor the Sewage is digested by aerobic bacteria using sewage as food materials.
5. The above treated water is passed through the sludge settling tank. From here the sludge is separated and passed to Sludge drying beds. After drying the sludge, it is used as natural organic manure for our gardening.
6. After removing the sludge, the water is collected in a separate collection tank.
7. This water is then pumped to sand filter and activated carbon filter. In the sand filter suspended particles are removed. In the carbon filter, any odour in the treated water is removed.
8. The filtered water is then collected in a sump. From this sump, the water is pumped to the entire college Gardens through over head tank

Bengaluru-560 068, Phone : 080-61754602

B. Name, & Contact number of the Head of the Institution:

Dr. N. KANNAN, Principal, THE OXFORD COLLEGE OF ENGINEERING, Hosur
Road, Bommanahalli, Bengaluru-560 068, Phone : 080-61754602

C. Number of Students who attended: 25

D. Number of Staff who attended: 05

To pay tribute to veterans of India who spent their life in protecting the nation along with martyrs who sacrificed their life for Indian soil, NSS UNIT, THE OXFORD COLLEGE OF ENGINEERING, BANGALORE has organized a 'Patriotic Run' on 3rd February 2022, under the #Fit India movement of the Government of India.

The objective of the event was to pay tribute to veterans of India who spent their life in protecting the nation along with martyrs who sacrificed their life for Indian soil.

The participants took an oath in favor of the Nation before the commencement and then with the count of ten the race was flagged off by Mr. Mahesh, PED from the main entrance of the Institution at 5.45pm. The entire route of 2KM around the college was well managed by the college volunteers. The event was graced by Dr. N. KANNAN, Principal, The Oxford College of Engineering, Bangalore.

A REPORT ON 774TH REPUBLIC DAY CELEBRATIONS

By

NSS UNIT

&

DEPARTMENT OF PHYSICAL EDUCATION

THE OXFORD COLLEGE OF ENGINEERING

26th JANUARY, 2023

REPUBLIC DAY CELEBRATIONS

The 74th Republic day of our nation was celebrated with solemnity and grandeur on the 26th of January 2019.

Republic Day honours the date on which the Constitution of India came into effect on 26 January 1950 replacing the Government of India Act (1935) as the governing document of India.

The Constitution was adopted by the Indian Constituent Assembly on 26 November 1949, and came into effect on 26 January 1950 with a democratic government system, completing the country's transition towards becoming an independent republic. 26 January was chosen as the Republic day because it was on this day in 1930 when Declaration of Indian Independence (Purna Swaraj) was proclaimed by the Indian National Congress as opposed to the Dominion status offered by British Regime

Objective

To bring the awareness among the youth that 26/01/2023 is “Republic Day Celebrations” & carry the same message to the next generation that by doing Republic Day Celebrations **Totally 180 students & 15 Faculty Members**, Student Council Members from **TOCE** College lead by Mr. Mahesh G, P.E.D witnessed this great event.

Venue & Event Details

Date: 26/01/2023

Time: 7:30 am students assemble

Place: “The Oxford College of Engineering”

PROGRAM SCHEDULE

- 8.30 am – Arrival of guest
- 8.45 am – Flag Hoisting By Principal, Dr. N KANNAN
- 8.50 am – Singing National Anthem
- 9.15 am – Speech By Principal
- 9.30 am – Singing National Songs And Patriotic Songs By Students
- 10.00 am –Refreshment

RESULT

The students & the faculty members who attended this program realized the importance of Republic Day celebration & its impact on next generations.

Radiation Hazard Awareness

28.08.2022

We the Department of Engineering Physics, carried out the Awareness program on Radiation Hazards on 28/08/2022. All the volunteers started rally to spread the awareness in Hongasandra, Bommanahalli region. Students began to approach the residents, commercial building persons to create the awareness on radiation hazards and effects of harmful radiation if exposed to human body .

The main objective of this campaign is to spread the awareness on Radiations and impart knowledge about how harmful the emitted radiations are from the radioactive elements like polonium etc..

During this session we explained the citizens on the harmful effects that are caused by exposure radioactive metals and how they can prevent or reduce the exposure to such metals. Many people gave suggestions on how to prevent or be precautious and they liked our sessions.

USE RENEWABLE ENERGY RESOURCES

Prof. Abdul Kadar CH
HOD PHYSICS
TOCE, Bangalore-68

Date: 3/9/2022

Dr. N Kannan
Principal
TOCE, Bangalore-68

We have conducted awareness on use of renewable energy resources on 3/09/2022. During this session we explained citizens regarding the renewable and non renewable resources and also how the non renewable resources like oil, coal are getting depleted slowly in the environment. So, by making use of the renewable energy resources like wind, solar energy, hydro power and geothermal energy over the non renewable resources can benefit us and also save energy for the future.

SAVE EARTH FROM POLLUTION

Prof. Abdul Kadar CH
HOD PHYSICS
TOCE, Bangalore-68

Date: 6/9/2022

Dr. N Kannan
Principal
TOCE, Bangalore-68

The department of Engineering Physics in association with NSS unit organized save Earth from pollution on 6.08.2022 at ITI Layout, Bangalore. Students actively participated in this activity to spread awareness about the pollution that is being caused in daily life and how it affects earth. Students participated in this activity with full enthusiasm. We insisted people to use eco friendly bags instead of plastic bags, using a public transport than their own vehicle which reduces air pollution, prefer electric vehicles over internal combustion ones and other ways to reduce pollution and save greenery on earth. At the end we could find the difference in the reaction of the people. They were very happy with the program .

National Service Scheme BLOOD DONATIONS CAMP

10th January 2023

The NSS unit of The Oxford College of Engineering has undertaken program under regular and special camping activities as per guidelines issued by Visvesvaraya Technological University from time to time. In this regard our NSS Unit, Department of Physical Education has organised Voluntary Blood Donations camp in collaboration with Narayana Hrudayala Blood Centre, The Oxford Medical College & Research Centre, Bangalore.

The National Service Scheme (NSS) was organized a blood donation camp in the college premises on Tuesday, **12th January 2023**. Dr. Vijayakumari, Dean- Academics of our college, inaugurated the camp, on this occasion our Director and Principal congratulated the NSS coordinators and students volunteers for coming forward to organize this event. Our NSS Unit, Department of Physical Education has organised Voluntary Blood Donations camp in collaboration with Narayana Hrudayala Blood Centre, The Oxford Medical College & Research Centre, Bangalore. It began at around 10 am and continued up to 4.30 pm, with a steady stream of donors throughout.

In the college premises (7th Floor New Building , MBA Block)the arrangements were made for the donors like registration counter, beds, sanitations, counseling and medical check-up of potential donors. A team of doctors and nurses had reached in time. The donors were provided with glucose water and food including biscuits, a banana and a juice. It was great to see more people than pre-registration numbers turning up in the venue.

BLOOD DONATION DRIVE ON 12.01.2023

Blood donation is a divine act of giving life. NSS motivational act has encouraged many to join hands with us as donors. **300 persons includes students, Teaching & Non-Teaching staff have participated** and **250 Units of Blood has donated** in this camp. Doctors , NSS Co-ordinator expressed their thanks to Volunteers and Donors for their contribution in the Blood donation Drive.

MAHARSHI VALMIKI JAYANTHI

On

9th October, 2022

Valmiki Jayanti celebrated as the birth anniversary of Maharishi Valmiki, the great sage and author. Maharishi Valmiki is the famous author of the great Hindu epic scripture Ramayana and he is also the first poet of Sanskrit literature. This day has a great religious significance among Hindus. Valmiki Jayanti is being celebrated today, on **9th October, 2022**.

The Special Assembly in the Seminar Hall started with the speech about Maharishi Valmiki, one of the greatest saints of the ancient world, by Dr. Kannan, Principal, The Oxford College of Engineering.

NSS committee of The Oxford College of Engineering arranged all religions prayers.

Dr. Kannan, Principal, NSS coordinator & Committee members, Heads and Faculty of all departments and Non-Teaching staff attended the programme and recalled the story of Maharshi Valmiki and Floral tributes were paid.

The Oxford college of Engineering, Bangalore- Institution Innovation Council in association with Department of Computer Science and Engineering organized and Artificial Intelligence and Machine Learning organized **“INNOVATION AND ENTREPRENEURSHIP OUTREACH PROGRAM”** on 20th February 2023. Regarding to this program, IIC convenor Dr. Bindhu Madhavi, who is also the Professor and Head of AIML, IIC ambassadors Mrs. Arunselvi and Mrs. Sathya. M visited BGS International School, Hulimavu, Bannerghatta Road, Bengaluru.

IIC convenor Dr. Bindhu Madhavi addressed the students of BGS International School regarding Innovation and Invention. She clearly explained about the difference between Innovation and Invention. It was a Mentor-mentee program. The importance of ATAI lab and its advantages are discussed in the program. The objective of ATAI lab is to foster curiosity, creativity and imagination in young minds and inculcate skills such as computational thinking and design mindset. Students explained about their projects and we cleared their queries regarding their

projects. Students gave demo of their projects and the projects are really good and useful to the society. Many students got benefitted by the Outreach Program.

OBJECTIVE:

The main objective of the Outreach Program is to offer Organizations innovative ways to improve and to influence large audience to meet the needs of the community. In the morning session, the resource person highlighted the uses and various applications of ATAL LAB. She also addressed and briefed about the goals of Innovation and how to implement it in real world. She Explains about how students wants to make small projects. The main goal of ATAL LAB is to help students prepare for, and demonstrate learning through, meaningful assessment. The 5 ATAL Skills are

- Thinking Skills
- Communication. Skills.
- Self. Management. Skills.
- Research Skills.
- Social Skills.

In the Afternoon Session, the IIC Convenor visited the ATAL lab .Students demonstrated the projects and she interacted with the students regarding their future projects to be developed. It was a interactive session and students queries were cleared by the IIC convenor and IIC Ambassadors.

She concluded the session emphasizing on the importance ATAL Lab and Innovation. The session was very motivating and created positive thoughts among the students.

45 students from CSE and AIML and 3 faculty are participated in the Outreach program.

OUTCOMES:

- Build a sense of responsibility and sensibility towards the society.
- Inspire Skill development.
- Deepen students' awareness and understanding
