REPORT ON MAKAR SANKRANTI CELEBRATION

Every year Makar Sankranti is celebrated in the month of January. This festival is dedicated to the Hindu religious Sun God Surya. This significance of Surya is traceable to the Vedic texts, particularly the Gayatri Mantra, a sacred hymn of Hinduism found in its scripture named the Rigveda. This festival marks the end of the long, cold, winter months and the onset of spring. In ancient times, it was the time when the shift of the sun resulted in longer days. So, it is a celebration of the change of seasons - from a harsher to a milder climate. A sign of hope and positivity. This festival is celebrated in honour of Surya (the Sun God) to pay tribute for the grace of his energy that has enabled life and food on earth.
