Ban on the use of Plastics

4. PLASTIC FREE CAMPUS

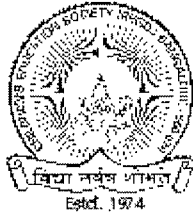

The objective of the event was to bring awareness among the Faculty, Students and the common people about the usage of plastic, its after effects and the available alternatives. They were given a brief idea about the Importance of avoiding plastic.

The event of "PLASTIC FREE CAMPUS" was organized by IMBA students of The Oxford College of Engineering on **13th of December 2018**.

The event was aimed at:

- Creating awareness on the harmful effects of using Plastic.
- Removal of all plastic items through out the campus.
- Giving away paper bags as alternatives.

2019-20

Swachhta Hi Seva2019 – Plastic Waste Free Campaign

Date: 1st & 2nd October, 2019

Name of the Event: SwachhtaHiSeva2019-PlasticWasteFreeCampaign

Month of event: 1st & 2nd October, 2019

Venue: Garebhavi Palya Village

No. of Participants: 175 Members

Out Put: The main objective of this program is to make people understand PlasticWaste Management, given the detrimental effect of uncollected plastic waste on human beings, animals and the environment at large.

Swachhta Hi Seva2019 campaign was launched by Prime Minister Narendra Modi on September 11, 2019. The theme of the campaign is 'plastic waste awareness and management'.

Taking Prime Minister Narendra Modi's ambitious Clean India Mission a step forward, The Oxford College of Engineering, Bangalore has conducted Swachhata Hi Seva campaign in the campus for awareness creation on single use plastic.

2020-21

No More Plastic

Date:17.07.2021

Name of the Event: No More Plastic

Month of event: 17.07.2021

Venue: Vivek Nagar

No. of Participants: 12

An outreach programme on - No more plastic- "No more plastic Initiative" on the occasion of plastic bag free day was organized by 8th semester students of Department of Electronics and communication on 12th July at Vivek Nagar. Plastic Bag Free Day is a global initiative that aims to eliminate the use of single-use plastic bags in the world. This work centered around Plastic Bag Free Day, on the 3rd of July each year .While plastic has many valuable uses, we have become addicted to single-use or disposable plastic -with severe environmental consequences.

Around the world, one million plastic drinking bottles are purchased every minute, while 5 trillion single-use plastic bags are used worldwide every year. In total, half of all plastic produced is designed to be used only once -and then thrown away.

Plastic waste is now so ubiquitous in the natural environment that scientists have even suggested it could serve as a geological indicator of the Anthropogenic era. We, the students of The Oxford College of Engineering, Department of ECE, took an initiative to keep our environment plastic free by picking up the plastics thrown on roads, the people around us appreciated our work and they also participated to keep the environment plastic free.

Landscaping with trees and plants

Trees also help to reduce ozone levels in urban areas. CO₂ is one of the major contributing elements to the greenhouse effect. Trees trap CO₂ from the atmosphere and make carbohydrates that are used for plant growth. They give us oxygen in return.
