Delighted greetings from The Oxford College of Engineering

With an aim of providing a centre for academic excellence and achievement, Children's Education Society (Regd) was established in the year 1974, headed by the visionary educationist, Founder Chairman Vidyashree S.Narasa Raju.

In its glorious journey of over four decades, the society has established under its wings more than 32 Educational Institutes in Bengaluru, from Pre-Nursery to Post-Graduate & Doctoral courses including Medical, Dental, Engineering, Management, paramedical, Life Sciences and Law. The Oxford College of Engineering is one of the most prestigious institutions in Bangalore that provides quality training in professional education in various streams of engineering, post graduate programme in Computer Applications (MCA) and in Business Administration (MBA).

The Oxford College of Engineering, is proud to announce a two day inter college technical festival IMPULSE 2k18 which is to be held on March 22nd and 23rd. The festival will be a high profile event which would attract students from colleges in and around Bangalore to compete on a big scale and showcase their talents. This will be the Fourth Edition of IMPULSE, the annual technical fest of the college. Last year, the event was attended by 3000 students and this year the festival is expected to be attended by 3200-4000 students.

This year we are proud to feature our prime event AUTO EXPO 2k18 during our technical fest. Participation of major automobile brands, showcasing their latest and greatest technology to aspiring students is the main outcome of this exhibition.

The success of the event depends on the generous support of our sponsors to help fulfil all our requirements and top level facilities for the event.

We invite you to participate and be associated with the IMPULSE 2k18.

Please find the details of events and sponsorship in the below pages.

TECHNICAL FEST-2019

Summary of Terror hunt

Round 1- Solve it

In this round riddle was given to each team which were divided into 3 parts and hidden inside 3 balloons which were named after each team [T1,T2,...]. Time of 10 minutes was given to each team to collect the correct balloons which belongs to their team among other team balloons. After collecting the balloons, they were supposed to solve the riddle.

To collect the balloon 1 member of the team is allowed is to solve the riddle both the teammates wereinvolved. The team which solves the riddle, their time was noted down. Filtering was done based on the time taken by teams.

Round 2- Unlock the luck

The teams which were able to successfully pass the round 1 qualified to round2.

In this round a box which is locked, and keys were kept were kept at considerable distance. One team member should be near box, while the other team member was near key. The original key was mined with other fake keys. So that the contestants can only pick 1 key at a time and travel to the box and unlock it. After unlocking the box, inside it a puzzle was placed. The puzzle was based on company logos. To solve the puzzle both the team members were involved. Those who were able to solve the puzzle their time was noted. The best timing teams were qualified for round 3.

Round 3 - Decode it

Qualified participants of round 2, are given an algorithm to decode and find the next clue which would lead them to next place to find the further clues of the next round upontimely arrival and correct clue identification. These clues were placed around the campus with simple algorithms to decode and search from them. This included the two members of the team to work in coordination and not just look for the clue individually leading to disqualification. The 13 teams upon fast arrival time with the right clues were selected for the next round with the rest being eliminated under these criteria.

Round 4 - Hit the barrels

This round is required the qualifiers to hit the barrels by looking for the clues i.e., the coordinators and requesting the hidden clues for the next round from them. They have given a description of coordinator members to identify them and a riddle to identify the where the coordinators where located in the campus building. Combined with these hints they were asked to get a barrel gun containing a key the next round clue as a part of this round. The5 teams with the right clue identification, keys and timely arrival were given priority and rest eliminated.

Round 5 - Diffuse the Bomb

The 3 qualified teams, with the help of the last round clues being the key or password, had to diffuse the bomb, within a time limit. Username and password were the hints of this round. Once the bomb is diffused as per required, this round being the last round of terror hunt ends with the winning teams as per time regulations and fast approach limitations.

Republic Day Report

The **71**st **Republic Day** Event was celebrated in all its solemnity and grandeur at The oxford college of Engineering on 26th January 2019. The students saluted the National Flag and pledged themselves to upholding the honor and integrity, diversity and uniqueness that is "India".

The Republic Day falls on January 26 every year, and the day is celebrated to mark India's adoption of the Constitution on January 26, 1950, after gaining independence from British rule in 1947.

Although India officially gained independence from the British on August 15, 1947, the country remained a constitutional monarchy under King George VI, who was represented by Lord Mountbatten as the Governor-General of India. Jawaharlal Nehru was appointed as the first Prime Minister of independent India by Lord Mountbatten.

India needed to draft and implement its own Constitution to become a republic. It took almost three years for the Constituent Assembly to prepare the Constitution, which was finally adopted on January 26, 1950. The question arises why this date was chosen, the answer lies in the fact that the Indian National Congress party had voted for total independence (Purna Swaraj) from British rule on January 26, 1930.

On this day, the Republic Day Parade is organised in Delhi at 9.30 am, following the flag hoisting at 9 am. The national function runs for around three hours, as a full-dress rehearsal is also held a few days before the actual event.
